EVENTS:

- **February 6, 2008 Financing and Partnering Seminar** 8:00 AM - 10:30 AM St. Julien Hotel Boulder, CO Non-Member Price: \$50.00 Finding capital and resources for developing life science technologies requires innovation and execution every bit as demanding as the original scientific breakthrough. Please join us as Cooley Godward Kronish LLP brings together national life science experts to discuss current financing and partnering trends, innovative ideas on how to increase the odds of success in strategic transactions and the pitfalls to avoid when entering into company transforming agreements. The featured speakers are experienced industry leaders who can help you learn from their experience. Speakers for this Financing and Partnering Seminar include Bill Freytag, former CEO of Myogen, Inc. and Aspreva Pharmaceuticals, Inc., Steve Dupont, VP and General Counsel for Pharmion, Inc., Andy Dickinson, a Director for Lazard Freres & Co. LLC, Barbara Kosacz, national head of Cooley Godward Kronish's firm-wide Life Science practice group. For more information or to RSVP contact cbsainfo@cobioscience.com or call 303-592-4073
- **February 12, 2008 Oversight of International CMO's** 7:30 AM - 10:00 AM Denver Metro Chamber of Commerce Denver, CO Non-Member Price: \$50.00 The complexity of manufacture of biotechnical products can be a lengthy, difficult and expensive process. Thus, many bioscience companies have discovered the benefits of employing international contract manufacturing organizations (CMOs) for manufacture of their products. Dr. Jeanne Novak, the owner and Principal Consultant at CBR International in Boulder, will provide seminar attendees with practical advice, cautions and suggestions based on her experience helping numerous companies identify and successfully manage international CMOs. She will be joined by several industry experts who utilize international CMOs for a panel discussion regarding best practices in finding and working with international contract manufacturers." For more information or to RSVP contact cbsainfo@cobioscience.com or call 303-592-4073
- **February 21, 2008 BioScience Larimer County** 3:30 PM - 6:30 PM Lincoln Center Fort Collins, CO Non-Member Price: \$50.00 Colorado State University is striving to be a leader in the identification of metabolites in foods from plants and animals that promote human health and combat chronic diseases such as obesity, type 2 diabetes, and cancer. Listen as Jessica Prenni, Director of the Proteomics and Metabolomics Core Facility at CSU, explains the research being conducted at the lab, what companies they are currently working with and where future research will be headed.
